Your new route to **independence**

Welcome to our new brochure, here you'll find full details of our comprehensive range of mobility scooters, powerchairs and wheelchairs.

When choosing a new mobility product it is important it fits with your lifestyle and needs. Most products fit into three main groups;

Car transportable: - which are dismantled to take with you and fold / break down into manageable components for lifting.

Medium range: - which are used from your home in your local community and do not require to be dismantled for car transportation.

Outdoor range: - These are normally Class 3 6/8 mph products with capabilities to be used on roads.

It is important you get the right advice and to help you we have a network of Dealers around the UK who are there to demonstrate and offer you back up sales and service support for your product. They will be able to advise you on suitable models, accessories, insurance and warranty so you have complete peace of mind.

Please browse through this catalogue. If you require any help please don't hesitate to contact our Customer Service Team FREE on 0800 252614 or visit www.electricmobility.co.uk to find your nearest Dealer.

To arrange a FREE no obligation product demonstration with your local Rascal Dealer please fill out the form at the back of this catalogue.

Which **scooter** do I need?

For a brief summary of all our scooter models, simply refer to the table below.

Scooter Models	Featured on page	Can be dismantled for car transport	Top Speed kmph / mph	Range (maximum distance on one charge) km / miles	Weight capacity kg / lb	Number of wheels
